

CONSTRUCTORA CONCONCRETO S. A.

States that:

In relation to the relevant information reported to the market on September 20, 2022, December 19, 2022, and January 26, 2023, we would like to report that, in the development of the comprehensive negotiation regarding the Company's participation in both the Concessionaire Company and the Construction Consortium of the Bogotá – Girardot Third Lane Project, today the Company signed with Vinci Highways S.A.S., a company belonging to the VINCI Group, the "Share Purchase and Subordinated Debt Assignment Agreement," an agreement by virtue of which Conconcreto undertakes to transfer 35% of the Shares and 35% of the subordinated debt that it owns in the company *Vía 40 Express S.A.S.* After the entire transaction is completed, Conconcreto will retain a 15% stake in the Concession Company.

As previously reported by the Company, the completion of these agreements is subject to compliance with the preceding conditions.

It is reiterated that, with these transactions, the Company will limit its exposure to existing risks in the contract for the construction of the Bogotá – Girardot Third Lane, due to the increase in inflation, high interest rates, and the devaluation of the Colombian Peso, which have an upward impact on the prices of construction materials and services, and guarantee compliance with its obligations to third parties, strengthening the Company's solidity and liquidity.
